Subject: Plan for new oil and gas wells in Converse County

To: blm_wy_casper_wymail@blm.gov

Dear Folks,

Please do not allow this project to proceed. I've been driving around taking pictures in that country for the last 4 years. It is wild and beautiful but already things are bad enough. We really don't need more CBM huts, pump jacks or *worst of all*: roads. It's such a mess out there already. Noise, light pollution, bad water, disturbed habitat. It's a bad idea for the critters that live out there, and for the humans living nearby, too.

Thank-you for your consideration,

Dainis Hazners
